CONTENTS

Vol. 151, No. 1, January 1987

Long-term results of open heart repair of ventricular septal defect. *Y. Kagawa, T. Horiuchi, T. Ito, Y. Suzuki, K. Haneda, E. Ishizawa, S. Arai, Y. Sekino and N. Sato* 1

Factors affecting the longevity of total Japanese population. *S. Araki and K. Murata* 15

Assessment of central and peripheral nerve functions in chain-saw operators: A study of short-latency somatosensory evoked potential and peripheral nerve conduction. *K. Murata, S. Araki and H. Aono* 25

Formation of polycystic ovary in mature rats by the long-term administration of human chorionic gonadotropin. *H. Ota, M. Fukushima and M. Maki* 33

Characterized dispersive wave-form of evoked compound muscle action potential in the localized ulnar nerve neuropathy. *Y. Miyasaka and M. Sakurai* 41

Development of benign prostatic hypertrophy estimated from ultrasonic measurement with long-term follow up. *K. Ohnishi, H. Watanabe and H. Ohe* 51

Urophonographic studies of the lower urinary tract: A new approach to urodynamics. *K. Koiso, S. Kanoh, K. Rinsho, R. Nemoto, H. Ishikawa, S. Ishikawa, M. Ohtani, S. Nemoto, H. Takeshima, K. Uchida, F. Kondo, T. Shimazui, K. Kikuchi, S. Kaneko, S. Yoshii, R. Noguchi, T. Umeyama and Y. Kosugi* 57

The mechanism of centrally mediated cardiovascular actions of the three structurally different calcium antagonists, verapamil, diltiazem and nicardipine, in rats. *Y. Imai, K. Abe, S. Sasaki, N. Minami, M. Seino, K. Yoshinaga and N. Taira* 65

Plasma GH responses to GHRH and other provocative stimuli in idiopathic GH deficiency with or without abnormal delivery. *K. Hanew, M. Goh, S. Sato, Y. Shimizu, A. Sasaki and K. Yoshinaga* 81

Quantitative NBT reduction test with or without stimulation of peripheral polymorphonuclear cells from pregnant women. *K. Okamura, Y. Yonemoto, H. Higashiiwai and A. Yajima* 89

Glucose-induced responses of insulin and gastric inhibitory polypeptide in various animal models. *A. Ohneda, T. Kobayashi and J. Nihei* 97

Immunological functions and T-cell receptor gene rearrangement of proliferating lymphocytes in a case of T gamma lymphocytosis with neutropenia *M. Okabe, M. Tanaka, Y. Uehara, S. Matsushima, M. Kakinuma, F. Abe, M. Kobayashi, N. Tachibana, K. Sakurada, H. Saito and T. Miyazaki* 105

Noradrenaline content in canine lower urinary tract tissue. *S. Dohkita, T. Nishimoto and T. Morita* 117

The outcome of idiopathic Bence Jones proteinuria. *T. Kanoh, T. Ohnaka, H. Uchino and H. Fujii* 121

Short Report

Failure in chymotrypsin enhancement of human rotavirus infectivity. *S. Kitaoka, H. Suzuki, T. Sato, Y. Numazaki, T. Konno and N. Ishida* 127

Vol. 151, No. 2, February 1987

Studies on nephrotoxicity following a single and repeated administration of cis-diamminedichloroplatinum (CDDP) in rats. *Y. Mizushima, H. Nagahama, A. Yokoyama, T. Morikage and S. Yano* 129

The altered time course of tension development during the initiation of fast movement in hemiplegic patients. *I. Tsuji and R. Nakamura* 137

Management of acid-base balance with red blood cell carbonic anhydrase (RCA). II. Control of acid-base balance with acetazolamide. *K. Taki, N. Takahashi, K. Mizuno and R. Wakusawa* 145

The role of humoral factors and the ileocecal valve in pathological changes occurring after distal small bowel resection. *M. Imamura, M. Toda, Y. Suzuki, I. Sasaki, T. Sato and A. Ohneda* 155

Peridermal granules of the chick embryo: Histochemical, ultrastructural and immuno-electron microscopical study. *T. Ito and T. Mori* 169

Erythrocyte insulin receptor in insulin autoimmune syndrome: Effects of corticosteroid therapy. *Y. Ohtsuka, T. Kondo, M. Shimada, K. Murakami, H. Ide and Y. Kawakami* 181

Inhibitory effect of L-methionine-deprived amino acid imbalance using total parenteral nutrition on growth of ascites hepatoma in rats. *N. Goseki, T. Onodera, M. Koike and G. Kosaki* 191

The time course of changes in force and cyclic AMP levels produced by isoproterenol and forskolin in isolated rabbit detrusor muscle. *T. Morita, S. Kondo, S. Dohkita and S. Tsuchida* 201

Ventricular arrhythmias in the long-term postoperative stage of tetralogy of Fallot. *M. Morikawa* 205

Production of a monoclonal antibody selective to human transitional cell carcinoma. *N. Takahashi, Y. Koizumi, T. Kawaguchi, K. Takahashi, T. Suzuki and T. Funyu* 213

The effects of intravenous injection of α-human atrial natriuretic polypeptide on blood pressure, renal hemodynamics and urinary kinin excretion in anesthetized rabbits. *N. Nushiro, K. Abe, M. Seino, K. Omata and K. Yoshinaga* 221

Paroxysmal kinesigenic choreoathetosis and paroxysmal dystonic choreoathetosis in a patient with familial idiopathic hypoparathyroidism. *H. Kato, K. Kobayashi, S. Kohari, N. Okita and K. Iijima* 233

Intratumoral doxycycline for skin metastases of human malignancies. *S. Okuyama, H. Mishina, A. Yoshizumi, Y. Usuba and M. Takahashi* 241

Plasma anaphylatoxin concentrations in inflammatory skin diseases. *T. Terui, H. Takematsu, T. Kato, K. Ohkohchi and H. Tagami* 245

Vol. 151, No. 3, March 1987

Growth and differentiation of teratocarcinoma OTT6050 affected by host hormonal changes in old mice. *K. Kubota, R. Kubota and T. Matsuzawa* 253

Effects of smoking on regional cerebral blood flow in cerebral vascular disease patients and normal subjects. *K. Kubota, T. Yamaguchi, T. Fujiwara and T. Matsuzawa* 261

A case of liver cirrhosis complicated with endotoxemia and disseminated intravascular coagulation: A case report. *Y. Yajima, M. Otsuki, H. Suzu-*

ki, K. Mori and Y. Goto 269
Correlation between gastric emptying time and the response of pancreatic polypeptide to test meals in peptic ulcer diseases. *F. Koizumi, T. Kawamura, A. Ishimori, H. Ebina and M. Satoh* 275
Establishment of five human malignant non-T lymphoid cell lines and mixed lymphocyte-tumor reaction. *M. Minegishi, S. Tsuchiya, N. Minegishi and T. Konno* 283
A case of glutaric aciduria type I with unique abnormalities in the cerebral CT findings. *S. Yamaguchi, T. Orii, K. Yasuda and Y. Kohno* 293
Enzyme replacement therapy in a patient with hyperargininemia. *N. Mizutani, C. Hayakawa, M. Maehara and K. Watanabe* 301
Antiproliferative assay of human leucocyte interferon. *N. Hirai, N. Hattori, N. O. Hill and K. Osther* 309
Polymorphism of ACP1 by isoelectric focusing: Population study in Japanese and phenotyping in bloodstains. *N. Komatsu, A. Kido and M. Oya* 317
Comparative studies on clinical features and CSF proteins of motor neuron disease patients. *S. Takase, Y. Ohara, H. Nomura, N. Okita, S. Nakano, K. Kogure and K. Itahara* 323
Effect of passive motions on the initiation of fast knee extension in patients with paraparesis. *N. Sajiki and R. Nakamura* 333
An improved method for observing the cytoskeleton around the bile canaliculi of rat hepatocytes. *M. Ishii, H. Suzuki, K. Kobayashi, Y. Miyazaki, M. Otsuki and Y. Goto* 339
A study of the fertilizing capacity of human spermatozoa: The hamster test. *K. Kyono* 345
Acute gastric ulceration in rats with obstructive jaundice with special reference to gastric mucosal blood flow. *I. Sasaki, Y. Konno, Y. Kamiyama and T. Sato* 351
Potent vasoconstrictor responses to endogenous digitalis-like factor of isolated, perfused dog intermediate auricular arteries. *S. Chiba, M. Tsukada, Y. Katsuyama, A. Tada and H. Zenda* 359

Vol. 151, No. 4, April 1987

Endoscopic findings of bleeding esophageal varices and experimental study. *S. Asaki, H. Sato, A. Sato, S. Ohara, D. Shibuya, T. Motojima, S. Meguro and T. Tamura* 363
Colonic motility, autonomic function, and gastrointestinal hormones under psychological stress on irritable bowel syndrome. *S. Fukudo and J. Suzuki* 373
An unclassified platelet function disorder associated with bleeding tendency. *Y. Endo, S. Mamiya, H. Niitsu, K. Iwamoto, S. Hamanaka and A.B. Miura* 387
A possible role of the glomus cell in controlling vascular tone of the carotid labyrinth of *Xenopus laevis*. *T. Kusakabe, K. Ishii and K. Ishii* 395
Lucigenin-induced chemiluminescence in human neutrophils in the process of adherence and chemotactic migration measured in a modified Boyden chamber system. *T. Kato, T. Terui and H. Tagami* 409
Effect of ileo-jejunal transposition on intestinal adaptation after total colectomy in dogs. *I. Sasaki, T. Tuchiya, H. Naito, Y. Funayama, M. Toda, Y. Suzuki, T. Sato and A. Ohneda* 419

Time- and dose-dependent responses of brain histamine to intracerebroventricular and intraperitoneal administrations of growth hormone-releasing factor (GRF_{1-44}). *R. Cacabelos, A. Yamatodani, H. Fukui, H. Niigawa, A. Miyake, T. Watanabe, T. Nishimura and H. Wada* 429

Antiarrhythmic effects of a novel diamine derivative, AN-132, on several animal models of cardiac arrhythmias. *K. Sakai, T. Yamazaki and M. Takagi* 443

Biochemical and hemodynamic changes in the hypertrophied dog heart subjected to chronic protein-calorie malnutrition. *K. Tabayashi, A. Iguchi, S. Arai, Y. Sekino, Y. Moizumi and T. Horiuchi* 453

Clinical, biochemical and enzymatic studies in type I hyperprolinemia associated with chromosomal abnormality. *K. Oyanagi, A. Tsuchiyama, Y. Itakura, Y. Tamura, T. Nakao, S. Fujita and H. Shiono* 465
